WORK HISTORY

Tech Wheelhouse - Greenville, SC

Research & Development Lead, April 2024 - Present

- Project manager for client support - effectively managed contract obligations/details, consistently provided expert guidance and support, and delivered added value through strategic recommendations and innovative enhancement ideas.
- Spearheaded the development of advanced machine learning solutions, driving strategic company goals and empowering clients to make data-driven, cost-effective decisions.

Accenture - Greenville, SC

Asset Performance Management Specialist, Dec. 2023 - April 2024

- Served as the central point of contact for client support, leading our team through the development and execution of HxGN EAM, PowerBI, and integration enhancement requests while ensuring smooth daily support.
- Effectively managed project budgets, orchestrated resource scheduling, and excelled as the communication lead by creating and providing support ticketing trends with the end goal of identifying opportunities for further training and enhancements.
- As the lead for the Accenture Greenville office, took charge in planning events and driving continuous office improvements with the objective of fostering an inclusive and welcoming atmosphere for all coworkers.

Asset Performance Management Senior Analyst, Dec. 2022 - Dec. 2023

- Both the functional and technical support lead for a series of customers amongst various industries.

- Engineered intricate enhancements, including integrations utilizing AWS and Azure, SQL database scripts, and customized front end JavaScript solutions.
- Leader of Accenture's EAM Analytics team, spearheading the incorporation of PowerBI with HxGN EAM driving future sales and fostering innovation.

Asset Performance Management Analyst, Feb. 2022 - Dec. 2022

- Successfully troubleshooted issues and delivered comprehensive support to multiple clients, ensuring seamless HxGN EAM software implementation, configuration, and continued support.
- Played a pivotal role in the development and support of a intricate database-to-database integration through actively building and monitoring the integration process, facilitated effective communication with end users on system functionality, and collaborated with system administrators and project team to identify opportunities for enhancement.

Advoco (now part of Accenture) - Greenville, SC

Solutions Consultant, Jun. 2021 - Feb. 2022

- Supported several projects frequently tackling database enhancements and troubleshooting, all while communicating with end users on system use and actively engaging with project managers and client administrators to strategize and implement optimal solutions.
- Orchestrated and conducted comprehensive client training sessions for system administrators and end users, empowering them with understanding HxGN EAM's functionalities and illustrating its incorporation to their business practices.

YMCA Camp Sea Gull - Arapahoe, NC

Associate Director of Camper Life, May 2019 - Aug. 2020

- Strategized current and future visions of camp during executive committee meetings.
- Accelerated the professional development of 38 staff members through strategic coaching, weekly staff meetings, and assistance.
- Conducted daily meetings and goal setting activities with 300 campers.
- Monitored camp activities to provide executives with important updates on camper/counselor related situations.
- Collaboratively resolved complex issues with administration, cabin counselors, campers, and parents.
